PROFESSIONAL SUMMARY

Web developer with 3+ years of experience building responsive websites, e-commerce platforms, and management information systems using Laravel, Livewire, React.js, and WordPress. Skilled in full-cycle web development from collaborating on UX/UI to deployment, domain migration, and client handover. Strong communicator and self-driven learner with a track record of delivering polished products for clients across Afghanistan, Iran, and the UAE.

PROFESSIONAL EXPERIENCE

Web Developer | *Shenaas Marketing Agency*

Sep 2024 – Present

Kabul, Afghanistan

- Developed and delivered 15+ client websites and custom systems using Laravel, Livewire, WordPress, and modern front-end stacks.
- Collaborated closely with UX/UI designers to translate Figma mockups into pixel-perfect, responsive interfaces.
- Led international client communication to gather requirements and present solutions for businesses in the UAE and Afghanistan.
- Managed domains, hosting, business emails, and post-launch migrations to client-owned infrastructure.
- Trained clients on using their delivered systems, ensuring smooth handover and long-term self-sufficiency.

Web Developer | *Obrang Media Production*

Jan 2023 – Aug 2024

Kabul, Afghanistan

- Built custom websites and management systems from scratch, including The Hope donor MIS, serving NGO clients.
- Translated design concepts into working products by partnering with the in-house design team on UX/UI decisions.
- Set up and configured domains, hosting, and email infrastructure across multiple client environments.
- Migrated client websites between hosts and onboarded clients with hands-on training sessions.

Scope (Biometric) Officer | *ASOW Organization*

Aug 2022 – Oct 2022

Kabul, Afghanistan

- Collected and verified beneficiary identification data, registering 100+ recipients daily into the WFP scoping database.
- Coordinated food distribution logistics by advising beneficiaries on pickup schedules and locations.
- Produced daily activity reports for the field manager to track project progress.

Ticket Booker | *Ariana Time Travel & Agency*

May 2022 – Jul 2022

Kabul, Afghanistan

- Booked flight tickets and registered passenger details in airline systems with full accuracy.
- Advised customers on flight options, travel requirements, and itinerary planning.
- Submitted daily activity reports summarizing bookings and customer interactions.

EDUCATION

Bachelor of Computer Science — Software Engineering

2019 – 2023

Allameh Institute of Higher Education — Kabul, Afghanistan

- Topped the class for 6 consecutive semesters.
- Awarded "Student of the Year" for academic and project excellence.

Diploma in English Language

2019

Cambridge International Organization — Kabul, Afghanistan

SELECTED PROJECTS

Abuud Clothing Store — E-commerce website (UAE client)

2025

Developed a full e-commerce platform for a UAE-based clothing retailer at Shenaas Marketing Agency, enabling product catalog management and customer ordering. Tech: WordPress, WooCommerce, custom theme.

Amazada Perfume Store — E-commerce WordPress website

2025

Built a self-managed product catalog and ordering platform for an Afghan perfume retailer, allowing the client to manage inventory and customers to browse and order. Tech: WordPress, WooCommerce.

Samangan Academic & Research Journal — Journal publishing system

2025

Lead developer for Samangan University's academic journal publishing platform using OJS, supporting full editorial workflow from submission to publication. Tech: PHP, OJS, MySQL.

Melloni 24 — Persian e-commerce website

2024

Built a Persian-language e-commerce site for an Iran-based socket retailer, including product management and order workflow. Tech: Laravel, Livewire, MySQL.

The Hope — Donor management system (MIS)

Jun 2024 – Aug 2024

Designed and built a donor MIS allowing donors to register, sponsor street children monthly or yearly, and track their sponsored child's school activities. Tech: Laravel, Livewire, MySQL.
